- **Ashley’s Playhouse** will use childcare software to sign the children in and out. During enrollment, a photo will be taken of the authorized persons and children. In addition, each parent will have their fingerprint scanned and will choose a pin number that identifies them and the children they are authorized to sign in and out.

- If there is no photo on file, but the adult is listed as an authorized party for the child, a valid government issued photo identification must be shown before the child will be released.

If at any time **Ashley’s Playhouse** staff feel uncomfortable releasing a child to an individual, the Austin Police Department will be called.

Health Check

The health and well-being of each child at **Ashley’s Playhouse** is of the utmost importance to us, therefore we will conduct a daily health check before the parent’s leave. The results of the health check will be determined by the center’s staff, not the parent, on whether or not the child remains in care for that day.

The exclusion of an ill child from care is determined by:

- Whether or not the child can participate in the activities planned for the day in his/her classroom/age group
- Whether or not the child requires more care than the staff can provide without compromising the care needs of the other children at the center
- Whether keeping the child in care will pose an increased risk to other children and adults at the center

- Illness reports will be generated and must be signed and dated by both an Ashley’s Playhouse staff member and a parent.
- A child must be fever free and symptom free without the use of fever relieving or other medications for a period of 24 hours before they will be allowed to return to the center.
